經濟部中小企業處積極透過育成輔導
強化中小企業的競爭力
豐沛的育成能量帶動企業在產業領域大放異彩

打造優質育成生態體系

帶領臺灣中小企業 挺進全球市場

臺灣經濟以中小企業為主體，廣達 135 萬多家的中小企業，早已在臺灣各個產業建構完整的中上下游生產體系，並且形成綿密的產業聚落，建立我國產業厚實的競爭力，再加上本處長期透過政策推動，搭建我國優質創業育成體系，強大的育成能量更使我國中小企業能以小博大，在全球市場與競爭對手爭鋒頭角，加速邁向成長茁壯、挺進全球市場。

近年來，隨著全球經濟前景持續呈現高度不確定性，產業競爭之激烈前所未見，本處為協助臺灣企業面對更加詭譎多變的大環境，持續加強育成火力，推動許多符合時勢的創新育成政策，藉此推升我國生技醫療、綠能環保、數位內容、電子資訊等產業，期能朝更具前瞻性的路途邁進。

為因應產業需求，本處除了在「補（捐）助公民營機構設置中小企業創新育成中心計畫」的既有基礎下，將育成中心歸納成創業型（青年與婦女創業）、創新應用型、跨國育成型及網絡型（前育成社群、社企育成及區域聯盟）4 大類型 7 大特色模組，持續引領育成中心依其能量及發展方向，聚焦並深化育成中心特色，朝向特色化、多元化及國際化發展。自 2013 年開始推動「新興產業育成加速計畫」，透過各種輔導措施與機制，已協助我國許多新創公司開發出優異的創新產品，藉由促進大企業與新創公司攜手合作，協助中小企業迅速打入國際供應鏈體系，贏得商機。2015 年為鼓勵青年創業，更配合行政院總體創新創業政策方針，以「青年創業及圓夢網」web 2.0 版，整合各部會創新創業相關資源，將我國各方的創新動能注入育成生態體系，成為中小企業創新升級的重要平台。同時，於金華官邸打造「青年創業基地」，提供創業資訊、業師諮詢等 O2O（Online to Offline）網實整合創業服務。更針對全台各區域產業特性，啟動「行動創業臺灣 368 巡迴服務」，連結中央地方創業資源，串接在地社群，分別於北、中、南、東區進行主題式的諮詢輔導服務，做到「創業資源到你家」。

多年來，本處總是順應國際經貿環境變化，推出各種多元創新創業育成政策內容，至今已展現豐碩成果。本處自 1997 年以來開始鼓勵公民營機構設立創新育成中心，至今全國共計逾 130 所育成中心，其中曾獲本處補助的育成中心達 125 所，而包括南港軟體、南港生技、工研院、交大、朝陽科大及高應大等 6 所育成中心，更陸續取得歐美育成機構國際軟著陸認證。且於今（2016）年，南臺科大在全球眾多大學院校型育成中心競爭下獲得國際商業創新協會（InBIA）「年度最佳大學育成中心」首獎，顯示我國育成戰力精實而強勁，並且高度獲得國際肯定。在企業育成方面，過去近 20 年總計已培育超過 1 萬家企業，其中新創企業超過 50%，維持及新增就業機會 25 萬個、誘發投資額超過 1,232 億元，並已協助 97 家企業成功上市（櫃）。

進入 2016 年，為持續擴大育成版圖，積極號召民間新型態育成組織加入我國創新創業育成網絡，以建構更具突破性與開創性的臺灣創新創業生態圈。相信未來在推動多元政策和聯合民間育成的雙頭馬車之下，將可為更多具備發展潛力的新創公司及中小企業，提供更完整的孵化與茁壯機制，促使優質企業在全球市場發光發亮，為臺灣經濟帶來豐沛的成長效益。

Optimising the Incubation Ecosystem

To Lead Taiwan's small and medium-sized enterprises into global market

Incubating

Small and medium-sized enterprises (SMEs) are the backbone of Taiwan's economy. Over 1.35 million of SMEs have built up complete systems covering all stages of production in a wide range of industries. They have formed concentrated industry clusters strengthening Taiwan's competitiveness. As a leading government agency responsible to support the development of SMEs, Small and Medium Enterprise Administration (SMEA) has implemented efficient policies to establish an excellent environment for optimising the incubator ecosystem and helping businesses to grow. This strong capacity of incubation performed a significant impact on the businesses' growth and as their major force breaking into the global market.

The increased uncertainty of the global economy in recent years has brought into unprecedented competition throughout the world. In order to help Taiwan businesses to cope with this unpredictable circumstances, SMEA has been making efforts to assist business growths and to promote policies for innovation and entrepreneurship adapting to the current situation together with the central government's focus of industrial development on biological and medical technology, green energy, digital content, as well as electronic and information technology. We hope that this will lead the SMEs to make a great stride forward in the highly competitive market.

To meet the needs of startup businesses, SMEA has categorized incubators into seven specific categories. These are youth entrepreneurship, women entrepreneurship, innovative application, transnational incubator, regional alliance, social enterprise incubator, and pre-incubator network. We are continuing to lead incubators focusing more on their specialties and penetrate into particular fields respectively expecting that the incubators will be unique, diversified, and internationalized. Since 2013, we have been implementing the project "Start-Up Taiwan Accelerator" and have already helped many companies develop outstanding and innovative products through a variety of guiding measures and approaches. By encouraging larger companies to cooperate with emerging companies, we have actively assisted SMEs participating the international supply chain and win business opportunities.

In 2015, we integrated resources of innovation and entrepreneurship from the government agencies into "Startup.sme.gov.tw Web 2.0" for youth entrepreneurs. The goal is to encourage young people to start a business and to respond to the Executive Yuan's policy guidelines on innovation and entrepreneurship. We put a wide range of support mechanisms throughout the programs into the incubation system and set the website as a powerful networking platform for influencing and upgrading SMEs. At the same time, the government transformed the former Premier House into "Start-up Hub", a base for youth entrepreneurs and provides information on starting business, expert consultations, and other integrated Online to Offline (O2O) services

Innovating

for entrepreneurs. To better serve the special needs of businesses in different areas of Taiwan, we also launched a mobile service "Mobile Entrepreneurship Taiwan 368 Action Plan" to create a link between the resources of the central government and local governments, which integrates clusters of entrepreneurs in northern, central, southern, and eastern Taiwan by offering consultation and hosting events on a variety of topics. The project delivers the most updated knowledge and information on entrepreneurship to local communities.

For many years, we have been putting a variety of diverse and innovative policies on innovation and entrepreneurship into practice in order to adapt to radical changes in global trading and economy. Since 1997, we have been encouraging public and private organizations to establish innovation centers and incubators. To date, there are more than 130 incubators in Taiwan while 125 of them have received subsidies from SMEA. Six of these incubation centers, Nankang Software Incubator, NanKang Biotech Incubation Center, Industrial Technology Research Institute, National Chiao Tung University, Chaoyang University of Technology, and National Kaohsiung University of Applied Sciences, have been identified as a Soft Landings program by EBN innovation network or International Business Innovation Association (InBIA). This year, Southern Taiwan University of Science and Technology has been selected as InBIA's University Incubator of the Year. These remarkable achievements indicate that Taiwan's incubation programs are absolutely first-rate and have enormous potential to foster the creation and growth of innovative entrepreneurs. Over the past 20 years, we have served more than 10,000 enterprises. Over 50% of these were new and startup companies. They have provided and maintained employment for more than 250,000 career opportunities, boosted NT\$123.2 billion of capital increase, and helped 97 companies successfully listed as components of Taiwan Stock Exchange (TSEC) or Over-the-Counter (OTC).

As moving into 2016, we hope to continue expanding the scope of innovation and incubation and recruiting private business incubators with forward-looking perspectives to join Taiwan's incubator network in order to build the most advanced and effective environment for innovation and entrepreneurship in Taiwan. We strongly believe that with the joint efforts between the government's promoting strategies and the private sectors' contributions will provide a more influential and sustainable mechanisms for incubating startups and SMEs with potential in the future. More than that, we expect to deploy a solid and vibrant ecosystem which enables high-growth businesses to obtain international competitiveness in the global market and eventually generate benefits to Taiwan's economic development.
